

Dear Mr. Green 2,

In tandem to my video which I will upload after I write these words, the superlative definition of 'Of Light and Love' is contingent on either your creation and/or composition - insofar these definitions are a disparate discussion - back in 1986 given piano is, too, your number one home. In this sense, we both celebrate being piano players. I digress.

In the ensuing years, the definition of 'Of Light and Love' has, largely due to yours truly, expanded to other definitions insofar the conceptual word has largely remained synonymous - I will not discuss Track 19. Shannon Green - Of Light and Love Returned due to the fourth word, 'returned', provides a disparate concept to Of Light and Love.

Specifically, as per your permission back in June 2022 when you said during The Great Play of Words from June 24, 2022 to June 28, 2022 when we made peace in a way that only the irrational father/son method can, where you ensured my ego remain in check when I assumed that only Of Light and Love is mine, you rightfully noted: "Of Light and Love is mine!" insofar that Of Light and Love is originally yours, too. I will not discuss at this stage the fact back in July 2019 during

The Crazy Clown episode - now only a Divine Comedy - where I was three years ahead of time and played the same egoic game with Of Light and Love.

As the definition of 'Of Light and Love' spans across multiple creative projects, including where I had the insight to have Book 7. Shannon Green - Of Light and Love (2027/2030) celebrate all of my teachers art as part of The Books of Shannons: Our Sun (2027/2030), it is paramount to note that the 'Of Light and Love' track by yourself is conceptually distinct to Book 7. Shannon Green - Of Light and Love (2027/2030).

Furthermore, the aforementioned Of Light and Love conceptual definitions are distinct to Album 4. Shannon Green - Of Light and Love (2025) - initially meant to be 2024, however sometimes time eludes me. As this album contains 4 different sides, Side 1. Of Light and Love is different to the album. I have therefore ensured that Album 4. Shannon Green - Of Light and Love (2025) is conceptually entitled as Of Light and Love (Album Edition), and Side 1. Of Light and Love (Side Edition).

If you have any other alternative ideas for the parentheses, please write back a letter as to any disagreements as per the definition. Ultimately, of course, the words 'Of', 'Light', 'and' (a conjunction, and can be utilised via the ampersand grammar (&(or maybe not 😊))), and 'Love' are words via the English language.

Finally, as these all contain letters of the alphabet, which are symbols, I trust you understand that this is prudent to ensure that the Of Light and Love superlative definition ensures no cross over with other Of Light and Love - as I celebrate being The Great Fool (Anima 4.2.) due to being The Son of The Fool, Vicki Green.

Kind regards,

Mr. Green 1

P.S: I will now be employing Comic Sans MS.
